I'm a **software engineer** based in **Nigeria** with **2 years of experience** in the software industry. My focus area for the past few years has been front-end development with Html, Css and React, but I'm also skilled in back-end development with Go.

## Experience

### Front-end Web Developer

*Classic System Infotech, Ondo State, Nigeria – (June2023 - Oct 2023)*

- Built Sign-up pages, Forms and Registration pages from the scratch, Designed the Companies Website and Flyers using my skill in Canva, Adobe Illustrator and Photoshop.
- Coached colleagues in Html and CSS styling. Also the linking of Web pages together.

### Graphics Design

*Mountain Top University MTU, Ogun State, Nigeria. – (Oct2021 - present)*

- Used various types of creative content for advertisements, Logos, or Flyers. I do this with multiple tools depending on the medium and goals of the final project.
- Defining requirements of the clients, visualizing and creating graphics including illustrations, logos, layouts and photos. I shape the visual aspects of websites, books, magazines, product packaging and more.

# Skills

## Javascript

My "native" programming language, I've worked with it for over 2 years. I've used it in the front-end with React and Redux, in the back-end for APIs with Node, Express and Hapi.js and for testing automation using Mocha and later on, Jest.

## Html

I've Worked with HTML for over 3yrs and I've used it to complete end-to-end coding of websites. I direct HTML projects, develop web applications, code sites, and provide support to website users.

## CSS (Cascading Style Sheets)

As a seasoned web developer, I possess comprehensive expertise in CSS, leveraging it to craft visually appealing and responsive web designs. Proficient in CSS3 features, including animations, transitions, and flexbox/grid layouts, I ensure seamless user experiences across various devices and screen sizes.

## Python

I've started learning it recently and found it challenging (in a good way!) I'm not proficient yet but I've worked on some features and fixes on my own.
